

Thrilling Birding Tour in Lithuania

Our Birding tours are usually organized twice a year, during migration time in Spring and Autumn, when millions of birds fill the skies. Either you are a professional ornithologist or just an amateur, Lithuania offers a unique possibility to see the very best of the Baltic birds.

Lithuania is one of the best places in Europe for birdwatchers. With its territory about 65 000 square km. And the population about three million only, the country is located on the way for numerous birds flocks that cross Europe on their way from or to Africa.
